BMW E9

From Wikipedia, the free encyclopedia

"BMW CSL" redirects here. For BMW M3 CSL, see BMW M3 § M3 CSL.

The **BMW E9** is a range of coupés produced from 1968 to 1975. Initially released as the 2800 CS model, the E9 was based on the BMW 2000 C / 2000 CS four-cylinder coupés, which were enlarged to fit the BMW M30 six-cylinder engine. The E9 bodywork was built by Karmann.

As a racing car, the E9 was very successful in the European Touring Car Championship and the Deutsche Rennsport Meisterschaft, especially the 3.0 CSL homologation model.

The E9 range was replaced by the E24 6 Series.

Predecessor [edit]

Main article: BMW New Class

The E9's predecessor are 2000 C and 2000 CS models, which were produced from 1965-1969 as part of the BMW New Class range.
